

FUNDRAISER

'hackers' golf day

Emergence Golf Day in support of Dolly's Dream

Dolly's Dream, our charity partner, is committed to preventing bullying, anxiety, depression, and youth suicide, issues that are increasingly linked to the digital world. As cyber insurance specialists, we see the risks that come with online interactions, and we are committed to helping create a safer, kinder digital space for young people.

Your involvement supports Dolly's Dream in delivering school education programs, providing mental health resources, and supporting families impacted by these critical issues. The charity's mission is to create a kinder, safer world by fostering resilience and encouraging open conversations about mental health.
